Daytime Closures on State Route 126 in Santa Paula

Ventura, Santa Paula – The California Department of Transportation (Caltrans) announced plans to close a lane and multiple ramps in both directions of State Route 126 (Santa Paula Freeway) next week.

From **Monday, July 23 to Friday, July 27, between 9 a.m. - 3 p.m.**, the following closures will be in place in the city of Santa Paula:

Eastbound SR-126:

- 10th Street off-ramp

Westbound SR-126:

- 10th Street off-ramp
- Palm Avenue on-ramp

The closures are weather permitting and subject to change.

One lane will be closed adjacent to each ramp closure to accommodate construction equipment and crews working at the site. Motorists should expect delays and are strongly advised to use alternate routes or avoid the area. Additionally, motorists can check traffic conditions before they leave by visiting the Caltrans [Quickmap](#).

The work is part of a storm water mitigation project to install bioswales and infiltration basins along the freeway to capture rain runoff. C.A. Rasmussen Inc. of Valencia, CA is the contractor on the project.

Caltrans reminds drivers to be “Work Zone Alert” and to “Slow for the Cone Zone.”
